EDUCATION

- **Birla Institute of Technology, Mesra** 2025-27
Master of Computer Application(M.C.A.) Current CGPA: 8.93
- **St. Xavier's College of Management & Technology, Patna** 2022-25
Bachelor of Computer Application(B.C.A.) CGPA: 9.14

EXPERIENCE

- **Bharat Intern** September 2023 - October 2023
 - Collaborated with a dynamic team at Bharat Intern to enhance my skills in web development. Applied programming languages such as HTML, CSS, and JavaScript to deliver responsive and user-friendly websites. Learned and adapted to industry best practices in a virtual internship setting, fostering both individual and collaborative growth.

PERSONAL PROJECTS

- **Question Paper Generation System - AI-Powered (Academic Project)** Jan 2025- Mar 2025
Languages/Technologies: React.js, Python (Flask), Groq API, PostgreSQL, DOCX Generation
 - A web-based AI-driven system that automates generating structured question papers for any semester and subject. Faculty upload a topic-wise Excel file, and the system extracts data and uses GroqAI to generate categorized questions and multiple unique sets. Built with React and Python, it offers a clean interface with guided steps and delivers the final papers in downloadable .docx format.
- **Mobile Sales Analytics Dashboard – Power BI** December 2025
Language/Technology: Power BI, DAX, Power Query, Data Visualization
 - Built an interactive Power BI dashboard to analyze mobile sales across India, delivering insights on brand performance, city-wise revenue, monthly trends, customer ratings, and payment methods using dynamic KPIs, slicers, and drill-down visuals.**GitHub Link** - Dashboard
- **Quiz Game** August 2024
Language/Technology: JavaScript, EJS, Express.js, PostgreSQL, HTML5, CSS3
 - Developed a web-based country-capital quiz game utilizing HTML, CSS, JavaScript, and EJS for the front-end, with Express.js and PostgreSQL handling the back-end, allowing users to match countries with their capitals. The game includes a dynamic scoring system, game-over alerts with the final score, and a restart feature for continuous play, demonstrating my skills in building interactive and responsive web applications.**GitHub Link** - Quiz Game
- **QR Code Generator** July 2024
Language/Technology: JavaScript, NodeJs, ExpressJs, HTML5, CSS3
 - I've developed a tool that generates QR codes for any website name entered by the user. Using the powerful "qr-image" and "inquirer" npm packages, this project not only creates a QR code but also stores the website name in a .txt file for easy reference. Perfect for quickly accessing websites with a simple scan.**GitHub Link** - QR Code Generator

TECHNICAL SKILLS AND INTERESTS

Languages: Java, Python

Database: MySQL, PostgreSQL

Data & BI Tools: Power BI, DAX, Power Query

Cloud: AWS

Web Technologies: HTML, CSS, Bootstrap, JavaScript, React, Node.js, Express.js

Relevant Coursework: Data Structures & Algorithms, Database Management System, Operating Systems, Object Oriented Programming

Soft Skills: Self-learning, Presentation, Adaptability, Communication, Teamwork

ACHIEVEMENTS AND CERTIFICATIONS

- Won multiple college-level coding competitions.
- Actively participated in debate and quiz competitions.
- Certification: The Complete 2024 Web Development Bootcamp – Udemy
